FEATURES

Flexible Content Management

Being compatible with HDCP (High Bandwidth Digital Content Protection) contents, HYUNDAI monitors are able to transfer copy-protected contents over the HDMI or DVI interface from any video source.

Full Protection (option)

In order to protect the high-tech components and ensure a long life the housing is made of steel and can be locked. The panel is protected by a special tempered glass which supports a clear image of the screen contents.

Touch Screen Function

Following their multimedia character HYUNDAI monitors are already equipped with built-in stereo speakers. The automatic adjustment function ensures the optimal picture set-up at the push of a button.
